Hi, Erin-

I was out sick too! Hope you are feeling better!

Ok. I agree. Let's schedule something for early next week. I'm good for the 26th or 27th.

Best,
Michelle-

Subject: Pohatcong OU3 90% RD comments

Hi Michelle,

I am planning sending you 90% RD comments either COB today. I was out sick for a few days last week and still catching up. I also came to the realization that this document is both a design (report + specifications + drawings) and remedial action work plan (thermal vendor drawings + field sampling plan, O&M plan, HASP, CQCP, waste management, thermal heating modeling report) which makes sense in this design-build scenario, but I typically see these under two separate submittals, and I underestimated my own review time. Suffice to say there's a lot of material in this document I didn't want to rush through.

Let me know if there's a good time to schedule a 90% RD comment review call either later this week or early next week.

Erin
